

Career Mapper

Founded in 2000, Perfect Careers, working in association with Assessments Online, is a career guidance and assessment company based in Johannesburg, South Africa. We are the Southern African licensed distributor of Career Mapper, an internationally acclaimed computerised Psychometric assessment program used to match school pupils, college students & adults to careers best suited to their ability, personality and interests. Both one on one assessments are provided as well as end user licences...

CAREER MAPPER – End User Licence:

- Half day **training session** is provided to your institution which includes:
 - ⇒ Installation of software
 - ⇒ Installation of dongle (metering device)
 - ⇒ Providing instruction on the functionality of the program and in giving feedback.

- A **meter** is consumed each time a completed test is entered into the software. Therefore, each person tested would require one meter. Meters are purchased and transferred very simply by means of a telephone exchange of codes.

- Individual test **reports** are generated by the software and can be printed out immediately after a test has been completed either through using the on-screen, web enabled or paper and pencil versions.

- People tested are provided with a **Life Planning Guide** - This colour-imported workbook details the RACPAC – A career planning and implementation methodology.

- **The Perfect Career Planner Web-site** - This is a free of charge web-site developed to assist students in researching:
 - ⇒ Careers/Job descriptions
 - ⇒ Tertiary institutions – local and international
 - ⇒ Qualifications
 - ⇒ Bursaries and more.
